STORY PROBLEMS

1. Devin and his dad went to Dad's and Doughnuts today. At the end, they announced that everyone could have more doughnuts if they wanted, and Devin and his dad got in line again. Devin ate 4 doughnuts, and his dad ate 8 doughnuts. How many doughnuts did they eat together?
2. Mrs. Young's class is going on a field trip. She counts 14 kids on one side of the bus and 14 kids on the other side of the bus. How many kids are on the bus?
3. Mrs. Tenney blows her whistle to tell the kids that recess is over. Ten kids line up in one row, and 15 kids line up in the other row. How many kids came to get in line?
4. During the spelling test, Kaden used both sides of his paper. One side had 10 spelling words, and the other side had 8 spelling words. How many total words did Kaden have on his spelling test?
5. Math is Cooper's favorite subject, and he practices his addition a lot at home. This week he did 5 worksheet pages and last week he did 8. How many worksheet pages did Cooper do during the last two weeks?
6. John plays tennis on the weekend. He likes to count the number of times he hits the ball. During the first game, John hit the ball 16 times. During the second game, he hit the ball 20 times. How many times did John hit the ball during the two games?
