Brain Teasers

1. Look at the pictures below. How many more army guys are there than robots?

2. Nick had 5 baseball hats in his closet. He takes one out and puts it on his head. How many hats are left in the closet? Which number sentence goes with the story problem?

- a. $5 + 1 = 6$
- b. $5 - 1 = 4$
- c. $4 + 1 = 7$

3. Sadie has 10 toy tops. She gets all 10 tops spinning at the same time, but 4 fall over. How many tops are still spinning?

4. What symbol is missing from this problem?

$$7 \quad \underline{\quad} \quad 6 = 13$$

- a. +
- b. =
- c. -

Brain Teasers

1. Look at the pictures below. How many more teddy bears are there than ballerinas?

2. Tanner is putting on a magic show for his family tonight. He had planned to do 5 magic tricks, but he decided to add 3 more tricks to the show. How many tricks will Tanner be doing total? Which number sentence goes with the story problem?

- a. $5 + 3 = 8$
- b. $8 - 5 = 3$
- c. $5 - 3 = 2$

3. Katie is signed up for 12 karate classes. She has her first class this week. How many classes will she have left after this week?

4. What symbol is missing from this problem?

$$6 \quad \underline{\quad} \quad 13 = 19$$

- a. +
- b. =
- c. -

Brain Teasers

1. Look at the pictures below. How many more super hero toys are there than jack-in-the-box toys?

2. Spencer's father asked him to take all 4 garbage cans to the bottom of the driveway. He has taken 3 of them so far. How many does he have left to take? Which number sentence goes with the story problem?

- a. $4 + 2 = 6$
- b. $4 - 3 = 1$
- c. $4 + 3 = 7$

3. Mason's house has a lot of alarm clocks. There are 2 in his parent's room, one in his room, and one in his sister's room. How many alarm clocks are there in the house?

4. What symbol is missing from this problem?

$$12 \text{ ____ } 3 = 9$$

- a. +
- b. =
- c. -
